

Carpentry & Joinery

LEVEL
2

Level: 2

Duration: 24 months

Delivery Models: Day release

This occupation involves carrying out skilled work, primarily using timber products, either on a construction site, or in a workshop, creating and installing building components.

At Moulton College we offer 2 specialist pathways, they are:

A **Site Carpenter** will prepare and install basic building components e.g., doors, straight staircases, wall and floor units and erecting structural carpentry and roof structures on a building site or in domestic and commercial premises.

An **Architectural Joiner** will produce building components by setting out, marking out and manufacturing basic architectural products, including doors, windows, and straight staircases and associated ironmongery.

Skills an apprentice will learn

- Work safely and be aware of key health, safety and welfare issues.
- Plan and carry out their work to commercial standards of quality and speed.
- Move, handle and store resources, such as materials and timber components, complying with relevant legislation & guidance.
- Interpret and follow verbal and written work instructions from trade supervisors and site managers
- Select the required materials to carry out the work, such as correct timber, tools, and fixings.
- Access, interpret and use drawings and specifications to carry out their work.

Qualifications Awarded

- Apprenticeship certificate
- Level 1 and/or level 2 maths and English (if applicable)

End Point Assessment Content

Knowledge test, practical test and an interview based on the portfolio.
